

# Life and Time - PxVx - Results Summary

*jflourney*

*Wed Mar 23 15:51:19 2016*

## **What models are these results from?**

### **National**

All models are full linear -> linear

### **College**

Only the full model testing HRZ\_IND with D\_SCALE didn't converge. We can use univariate fit statistics to determine that we should choose to use the model with restricted slope variance for HRZ\_IND.

## **Parameter Summaries**

The tables summarize the results of the models.

Table 1: Auto-Regressive Associations Between **Financial Aspirations** and Personality Scales, Accounting for Age
