Life and Time - PxVx - Results Summary

jflournoy

Wed Mar 23 16:17:59 2016

What models are these results from?

National

All models are full linear -> linear

College

Only the full model testing HRZ_IND with D_SCALE didn't converge. We can use univariate fit statistics to determine that we should choose to use the model with restricted slope variance for HRZ_IND.

Parameter Summaries

The tables summarize the results of the models.
