# Life and Time - PxVx - Results Summary

j f lournoy

Thu Mar 24 09:06:51 2016

## What models are these results from?

#### National

All models are full linear -> linear

## College

Only the full model testing HRZ\_IND with D\_SCALE didn't converge. We can use univariate fit statistics to determine that we should choose to use the model with restricted slope variance for HRZ\_IND.

### **Parameter Summaries**

The tables summarize the results of the models.

Table 1: Auto-Regressive Associations Between **Financial Aspirations** and Personality Scales, Accounting for Age
